

# Olupemi Ogunkeye

Frontend Developer with 3 years of agency experience building Webflow sites for clients across cybersecurity, fintech, edtech and Web3. Trusted to lead complex builds end-to-end, from CMS architecture and SEO to GSAP animations and third-party integrations. I specialize in Client-First development, creating structured, scalable sites designed for performance and easy management long after launch.

## EXPERIENCE

### Lead Webflow Developer | Qontour, US (Remote)

August 2024 - Present

- Lead end-to-end development of Webflow projects for enterprise and growth-stage clients, including a Series F company
- Architect Client-First systems, including CMS structures, component libraries and scalable layouts for long-term marketing autonomy
- Implement GSAP animations, advanced interactions and third-party integrations across complex builds
- Drive SEO, performance and accessibility implementation across all projects to improve discoverability and usability
- Serve as the go-to Webflow expert and technical lead, collaborating with designers and stakeholders to resolve UI/UX challenges and unblock delivery

### Freelance Frontend Developer | Self-Employed

November 2023 - Present

- Build and deliver Webflow sites across Web3, SaaS and creative industries, including work recognised with an Honorable Mention on Awwwards
- Lead full-cycle development from wireframes to launch, including CMS architecture, custom animations, interactions and responsive implementation
- Collaborate with agencies on complex Webflow builds, including integrations, migrations and performance optimisation

### UI Developer | Check DC, Nigeria

January 2023 - September 2024

- Built 4+ responsive Webflow sites, collaborating closely with designers and senior developers to deliver pixel-perfect, performant experiences
- Applied HTML, CSS and JavaScript to enhance interactivity and functionality across builds
- Managed Webflow CMS across multiple projects, ensuring scalable and easy-to-maintain content structures
- Improved SEO performance, increasing website visibility and search engine rankings
- Leveraged motion design principles to enhance UI and micro-interactions
- Maintained and iterated on existing projects, aligning them with modern web standards and performance best practices

## EDUCATION

### B.Sc Architecture

First Class 4.89 (CGPA)

Covenant University

2018 - 2022

*Architecture built a strong foundation in structured thinking, systems design, and attention to detail, all of which translate directly into how I approach frontend development.*
